

# DOES YOUR BUSINESS COMPLY WITH THE HSE'S WELDING FUME RECLASSIFICATION?

**Did you know the HSE has reclassified welding fumes as a carcinogen?**

**HSE Bulletin No. STSU1 – 2019  
States:**

**There is new scientific evidence that exposure to all welding fume, including mild steel welding fume, can cause lung cancer. There is also limited evidence linked to kidney cancer.**

**There is a change in HSE enforcement expectations in relation to the control of exposure of welding fume.**

**All businesses undertaking welding activities should ensure effective engineering controls are provided and used to control fume arising from those welding activities.**

## **ACTION REQUIRED**

HSE's bulletin suggests that Local Exhaust Ventilation (LEV) solutions are a typical means of helping to control exposure to welding fumes.

**Did you know we can provide this solution?**

We can, either by designing and installing a fixed extraction system for you, or by supplying a mobile extractor unit.

## **Check Out This Special Offer**

**WORKY**

**SMOBIPLUS**

Mobile Weld Fume Extractor

**£2,650.00 +VAT**

- Trolley-mounted
- 3m long arm
- Pre-filter
- Mechanical filters
- 5kg active carbon filter
- 1.5 HP fan
- Filtered, and deodorized fumes
- Available in various voltages
